

# Be A Genius

A world of discovery is waiting for you.

If you are capable of bringing discoveries and illuminating insight to research then you are looking for us, and we are looking for you. Plane Space Design is a place where you can be a genius. Is it in you? If it is then come join us.

# Find Real World Solutions on the Leading Edge of Technology

## Energy

Maybe you can find a solution that will solve the ever growing energy problem. We have already started to find solutions that will give you a chance to show your genius to the world. Do you think that you can help us make our energy solutions part of the world's new idea pool? If you can then we are asking you to join us.

## Space Commerce

Maybe you have a better way to get man to the moon or to Mars. Or you may have a brilliant idea about how we can use the resources in outer space to improve life here on earth. If this is how you think then you are the genius that we are looking for.

## Research

Show your genius to the world. We want to help make it possible for you to let your light shine. We have ideas from which you can draw. We have numerous intellectual foundations on which you can build your legacy.
